

FOR IMMEDIATE RELEASE

CONNOLLY RECEIVES THE TECHNOLOGY FAST 50 AWARD FOR 103 PERCENT REVENUE GROWTH

Atlanta, Georgia, September 27, 2007

Connolly was named to Deloitte's prestigious Technology Fast 50 Program for Georgia. The Technology Fast 50 is a ranking of the 50 fastest growing technology companies by Deloitte & Touche, one of the nation's leading professional services organizations. Rankings are based on each company's percentage revenue growth from 2002–2006.

Connolly's increase in revenues of 103 percent ranked it 27th in the Technology Fast 50 for Georgia. To qualify for the Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 2002 and \$5,000,000 in 2006, be headquartered in Georgia, and be a company owning proprietary technology or proprietary intellectual property contributing to a significant portion of the company's operating revenues. For more information on Deloitte's Technology Fast 50 or Technology Fast 500 programs, visit www.fast500.com.

Connolly's CEO, Larry Connolly, credits the company's 103 percent revenue growth to high overpayment recoveries, a sustained client satisfaction rate of 97 percent, and 98 percent client retention. Mr. Connolly also went on to say, "Since the founding of the company in 1979, technology has played a critical role in delivering recovery audit services and provides us with a competitive advantage. Our investments in hardware technology and development of cutting edge software solutions are a catalyst to our growth and enable us to deliver outstanding results to our customers."

About Connolly

Connolly is a leading global recovery audit firm. Connolly assists clients in the industries of healthcare, retail, commercial, and government in recovering hundreds of millions of dollars annually in erroneous payments to suppliers, vendors, and providers. These errors are endemic to any large organization and result in significant lost dollars every year if not recovered. Recovery auditing is recognized as a best practice and Connolly's expertise places it in a position to propose vital process improvement recommendations to reduce or eliminate future payment errors.
